

The large graphic display shows the animated control circuits, which allows you to view the operating statuses of each system. The clearly arranged display ensures easy operation using pictograms.

15 pre-programmed systems enable universal usage. The Steca TR 0603 controller has six inputs for recording temperatures or pulse values, as well as three speed-controlled outputs for controlling pumps or switching valves.

Product features

- Compact, multipart designer casing
- Electronic speed control
- High level of operational safety through fault diagnosis
- Hours-of-operation logger
- Software update possible
- Storage tank target temperature loading
- Screw terminals allow universal and rapid installation

Displays

- Multifunction graphical LCD display with backlighting
- Animated representation of the systems and operating states

Operation

- Multilingual menu navigation
- Side switch for manual, auto, off

Functions

- Heat quantity (pulse generator)
- Heating return increase
- Holiday (storage tank recooling)
- Circulation (controlled by temperature / time)
- Back-up heating
- Solid fuel boiler
- Bypass
- Thermostat
- Timer

- Interval / tube collector
- Anti-freeze
